# Who we are

OrKidstra is a social development program for children aged 5 to 18 living in under-served areas of Ottawa, Canada.

**Our mission** is to empower kids and build community through the universal language of music. We carry out this mission by providing children from low-income families with free group and individual music lessons and the chance to learn important life skills like respect, compassion, teamwork, and responsibility through playing and singing together.

**Our vision** is a future where all children and youth have the opportunity to find their voice and build their potential through music.

Our mandate is to give children from under-served communities the opportunity to learn and make music together, and the chance to benefit from the individual skills and community values inherent in music-making.

OrKidstra is a registered charitable organization (83246 7153 RR0001).

### A message from the Chair and the CEO

As you read this message, we hope that you are all safe and well. To say that this season has been unprecedented is, of course, an understatement. But amid the global upheaval caused by COVID-19, we remained connected, now more than ever, as an OrKidstra family through the joy, hope and power of music.

Our 2019-20 season began on a high note with our biggest-ever CAMP OrKidstra, our reach grew with the first-ever TV broadcast of an OrKidstra concert in December 2019, and our students and families were inspired by Professor Dr. Richard A. White (R.A.W. Tuba) in February 2020.

And then, the halls of OrKidstra suddenly fell silent...

But, guided by OrKidstra's spirit of love, courage, and excellence, the harmony began to rise again...

Less than two weeks after the mid-March shutdown, we launched OrKidstra @ Home, an innovative online learning strategy bringing music education home. At the end of 2019-20, almost 85% of after-school instrumental students continued to be involved—an amazing accomplishment made possible only by the generosity of our community and the resilience, creativity, and determination of our students, families, teachers, staff, board, and volunteers.

As we continue to look to the future, adaptability will remain the key. The strong framework for expansion that we designed with Crescendo, our strategic plan, leads the way with managing challenges and revealing opportunities.

Now more than ever, we see the tangible benefits of engaging our students through the joys and challenges of music. Now, more than ever, we see how music can connect us, even at a distance. Now, more than ever, let's sing and play every note with love.

**Creates** extensive and intensive community connections.

"He used to be a bit of a difficult child at school. I noticed that since he started the OrKidstra program he's...more attentive where he's listening. I've seen quite a significant improvement in his academics since he started learning music."
